

Hotel Börse

Bedded in History

Welcome at the "Hotel Börse", your palais in the Görlitzer Old Town. The history of our house goes back to the 18th century. While at that time the "old merchants held convent", the "Börse" today offers cozy, individual and stylishly decorated rooms, reflecting the special flair of the historical city centre. No wonder our guests sometimes turn into daydreamers ...

Location: Centre of the Görlitz Old Town

Hotel furnishings: Due to the variety of recommendable restaurants only a short walk from the "Börse", we abstained from keeping our own gastronomy. Instead of that we indulge our guests with a rich breakfast-buffet for a good start into an adventurous day. For your own site investigation of Görlitz we provide bicycles for your use.

Room furnishings: We wish to offer our guests a second home and have set a course with exceptional, partly antic, furniture, which underlines the unique character of our house. Enjoy the distinctive ambiance of your accommodation. And of course all advantages of modern technology: elevator, all rooms have TV and Internet access.

Other: If for some reason we should not be able to offer you a room, we recommend our guesthouse, located above the legendary historic "Flüsterbogen" (whispering arc) as a romantic alternative. Opposite the "Untermarkt" rooms await you that are in no respect less elegant and friendly than in the "Börse".
